The 10-10 International News is published four times each year by the 10-10 International Net, Inc. All currently paid up members receive a copy automatically.

Editorial Office is at 445 Magnolia St.,
Denver, Colorado 80220 (303) 333-3547

Chapter Activity Reports (quarterly)
should be sent to the 10-10 Co-Ordinator:
Connie Hauck, 794 W. 23rd St., Upland,
California 91786 (714) 985-4836

All 10-10 news items and photos should be sent to the Editor. Next 10-10 News is the Fall Edition due out in Oct 1980 with a DEADLINE of Sep 5th, 1980

The 10-10 International News is an independent publication and is not affiliated with any other organization. Permission is automatically granted to reprint from this publication provided a credit line is used with the reprint.

REMEMBER!

ATTENTION

IN ORDER TO FACILITATE THE PROCESSING OF RENEWALS OR OTHER ORDERS, MEMBERS WHOSE ADDRESSES INCLUDE U.S. ZIPCODES SHOULD SEND THESE TO THE MANAGER FOR THE CALL SIGN DISTRICT INDICATED BY THE NUMBER IN THE MEMBER'S OWN CALL.

Charles F. (Chuck) Albrecht Jr.
WAØYNQ #8105 VP-230
Editor, Ten-Ten International

The COVER PERSON this Quarter is CLINT PAINE - K4EKX who is the Regional Manager for the Fourth District. He is very active and conscientious as proven by his regular attendance at most Four-Land conventions and hamfests to man the 10-10 booths and preside over 10-10 Forums. Clint also appears on page-14 in the 10-10 Spotlight.

This issue of 10-10 News features Connie Hauck (K6EXQ) as author of "Chapter Chatter" and I wish to thank her for taking the job. Chapter Heads PLEASE NOTE! You should send Connie all chapter news...HOWEVER, photos should STILL be sent to the Editor. If photos are sent to Connie, they will be received too late for the Editor to process. Items for "Up-Coming Events" should be sent to the Editor. DEADLINE for the next edition (Fall) is September 5th, 1980.

I am still receiving letters stating non-receipt of 10-10 News. If you hear this problem from stations on the air, please advise them to correspond with their respective Regional Mgrs. I wish to remind members that I am NOT in charge of circulation.

With respect to page- 16(AM repeator 29.550/29.650mc) I would remind those involved that for many years it has been a "gentleman's agreement" that the upper portion of 10 meters be used for FM operation. If we invade their portion, they might decide to invade ours. Chaos might result.

The following is extracted from Webster's "New World Dictionary (of The American Language)"
c 1978 by World Publishing Co.....

"CHARTER MEMBER : Any of the founders or original members of an organization."

The above definition is mentioned to set the record straight concerning my remarks in the Spring Edition of 10-10 News (page-26). A charter member is a permanent award/title to be removed only if the member's FCC license is revoked for violations. At the time the chapter was formed, the charter member was active and, in some cases, contributed and/or loaned money to assist the chapter at it's begining. The member's inactivity at a later date has NO bearing on his original charter status. I might point out, at this point, that there is always the chance of re-activity on the part of the inactive charter member. So don't close the gate to his /her chance to come back to the fold. Think of the chaos, confusion and complications that would result IF 10-10 International would revoke 10-10 numbers for non-payment of dues. Our 10-10 International sets the example of issuing permanent (for life) 10-10 numbers and NOT one has ever been revoked! I would suggest to officers of new chapters now forming that they use great care and thought when assigning "Charter Membership". There will always be personality conflicts in ANY group or organization, however, it should never result in the taking away of a "Charter Number".

With respect to comments just made, I might add that maybe the inactivity of members is a result of "boring nets". Maybe the net is held at a time that is inconvenient to members. How about your roll call? Is it long and tedious? Do you ask for stations with traffic first? Do you give mobiles preference? Does your net have projects, such as; weather reporting, traffic etc etc? With fast and simplified roll calls, interesting projects and meeting times agreeable to the majority, your net will be fun, interesting and ACTIVE! Nets before sunset will feature more out-of-state check-ins as opposed to late night nets after normal band closing.

By the time this edition of the 10-10 News gets to your mailbox the ARRL National Convention will be in full swing up in Seattle. Good luck and best wishes to the Chief Seattle 10-10 Chapter sponsoring the 10-10 Booth and Forum.

Thats it for this edition, see you in the Fall News and on ten...73 - Chuck
(NOTE: Comments and opinions expressed in the Editorial are not necessarily those of the 10-10 International Net, Inc.)

Words from the President

HOWARD BOWMAN
W6QIR #4509

NEW RECORD?

So far as I know, there are no records of "records" in 10-10. By accident I got in on what must have been one - or close to it - on Saturday, April 26, which was, if you recall, the last day we were on standard time this spring. Net control for the 10-10 International Net that day was Bud Bostick, W4WHM, who lives in a suburb of Nashville.

According to my log, I checked in at 1822Z; also, according to my log, I rechecked at 0033Z, and the net was still going strong. I asked Bud to give me some kind of an account of what had happened in between, and in his account discovered that the net didn't finally close until 0115Z, having started at 1742Z.

To quote from Bud's account: "During that period of 7 hours, 33 minutes, the frequency was continuously active. There were 88 check-ins, from 17 states, 8 call areas, and 2 DX countries. I do not keep an exact tally on re-checks, contacts, and exchanges made to qualify a non-member or to explain 10-10, etc., but I estimate . . . well over 150 total transactions, possibly as many as 200."

Bud also pays tribute to relay assistance, saying, "W6PGM, who was the third check-in, checked out early on Sunday, as the band was going fast. Jim put in about seven hours with me, and rendered valuable assistance in his usual gracious, efficient manner." For those of you who don't already know, W6PGM is Jim Michaels, of Long Beach, CA, and holds 10-10 Number 10!

As all of you know, the band wasn't in the best of shape at the end of April, and Bud emphasizes this by pointing out that there were no check-ins from the 7 or Ø call areas, or from Europe, Canada, or Mexico. However, one California member who had checked in early, re-checked toward the end, saying that he had made a 300 mile round trip in his car since his original check-in, and found the net still going strong. One important point that Bud makes is as follows: "There was very little interference, tuning, and doubling - and no courtesy or jamming."

Bud has conducted the Saturday net since late last November. On the average, he is on the air close to four hours. The average number of check-ins is about 45, of whom about 42 are 10-10 members, and the remaining 3 non-members.

VOLUNTEERS

In the spring issue I mentioned the call signs of the volunteers who act as net control operators for the 10-10 daily International Net. To a man, they are dedicated members who contribute their time for the benefit of 10-10. There are also a lot of others who do the same. On Page 2 of each issue of this publication there is a list of all the 10-10 officers, managers, coordinators, and so forth.

When I assumed the office of president, less than a year ago, one of the first things I had to face was the need for a number of appointments. I was lucky in being able to make these with a minimum of difficulty, although it did involve a lot of use of Ma Bell's long lines. A second item was to ask all of the Call Area Managers to try to locate replacements who could take over, in the event of need. And a third was to set up a file folder labeled "Volunteers." It doesn't have much in it.

There must be many of you who could spare a few hours to work for 10-10. We especially need volunteers here in the Los Angeles area, since almost all production activity is centered here. But wherever you live, if you have some remaining time and energy to devote to the good of amateur radio in general, and 10-10 in particular, let me know directly, or let your District Manager know.

FOREIGN MAILING

In addition to keeping all 10-10 officers and managers ~~in~~ supplies, Roy Ackerman, W6DFM, does the foreign mailing of the News. He picks up and takes home more than 1200 envelopes, each containing a copy of the News and bearing a mailing sticker. He and his XYL go through these and pick out the ones destined for airmail. Each gets a special label and extra postage. The rest get 40¢ stamps. Ever try licking more than 1200 stamps?

Like to know where they go? The greatest number, 341, goes to Canada. Australia gets 322; all of Europe, 279; Mexico, Central and South America, 99; Japan, 92; New Zealand, 63; Africa, 19; and 11 more go to various miscellaneous destinations.

By the way, Roy also acts as NCS for the 10-10 International Net each Friday, and somehow manages to serve on the Board of Directors for one of the more active local clubs. Do I hear anyone else volunteering to help?

FIRST CLASS

Writing about Roy and the foreign mailing reminds me that we frequently have members who ask how much extra it would cost to have the News sent via first class mail. At the present time, there just isn't any way we can do it. True, officers, managers, and chapter heads get copies by first class mail, but these are extra copies. They also get the regular mailing, so, essentially, they get two copies for the price of one. That mailing is handled by Morrie Goldman, W6EHM, who stuffs the envelopes, makes and applies mailing labels, and puts on 41¢ postage. Any volunteers?

Regular mailing is almost completely automated. Labels are computer-produced, and affixed by our mailing service. The mailing service also gets them to the post office for bulk mailing. To provide first class mail service, we'd have to have someone pick up the copies of the News, prepare and affix mailing labels, stuff envelopes, lick stamps, sort by Zip Code, and get everything to the post office. Any Volunteers? And, don't forget that mail rates are scheduled to go up next year and that the Zip Code will be increased by a dash and four more digits. Or will they call it Zap Code?

TILT TO THE WEST?

I have no idea how many members 10-10 has in each of the ten U. S. call areas, and I guess that there's no way of telling, now that you keep your call sign if you move to another area. For this reason, I don't know if we have more 6's than 4's or 5's. Once a month or so, I get something in the mail which makes an oblique reference to the California orientation of 10-10. Sometimes it isn't so oblique, but rather direct. One chap even used the word 'ruled'. However, he did put quotes around it.

I don't get upset by these comments, because they are, to some degree at least, true. There is a reason for it, however. Some of the old letterhead I have here reads, "Ten-Ten International Net of Southern California, Inc." Does that give you a clue? This organization has been incorporated for a good many years, under the laws of the State of California which provide for non-profit incorporation. One provision of that law provides the answer to those of you who have inquired: a non-profit corporation must have its principal place of business in the State of California. It may (and 10-10 does) conduct business elsewhere, but its principal place of business must be out here.

ANNUAL MEETING

The last two paragraphs reminded me that, like all corporations, 10-10 International Net, Inc. is required to have an annual meeting. In our case, it isn't a meeting of stockholders, but rather one of members. Our By-laws require that it be held on the first Sunday of November, which is November 2, 1980. Arrangements for that meeting have been in the capable hands of "Mr. Beacon", Norm Lefcourt, W6IRT, who is also the Vice-president of 10-10. Norm has arranged for the meeting to be, as usual, a luncheon, and to be held on board the floating restaurant, Princess Louise, which is located in the main channel of Los Angeles Harbor.

Cost of the luncheon is \$7.50 per person, and reservations are to be made through 10-10's Secretary, Jo Moise, K6AYU. Jo's address is 17904 Gard Ave., Artesia, CA, 90701. Reservations must be in not later than October 25.

First order of business will be the election of officers for the coming two year term, to be followed by consideration of any proposals to amend the By-laws or to change 10-10's operating procedures.

Members should note that any proposals to amend the By-laws should be forwarded to the President immediately, so that the Board of Directors may have ample time in which to consider them prior to the November meeting.

ROSTERS

Roster Manager John Pomeroy, K6UQ, has a tough job in connection with planning for a new Membership Roster. The problem is that if we continue to publish in two volumes, with every entry "100%" - that is, full size, just as it appears on the computer listing, we'll wind up with a pair of Rosters that are so expensive that no one will buy them. Currently, we are exploring ways of cutting the cost so as to keep the publication at a reasonable price. It looks as though we should have new Rosters about the time you read this, and the price will remain the same - at least for the time being.

Many times on these pages I have commented that it should come as no surprise to a Roster purchaser to discover that it doesn't contain his 10-10 number and call sign -- you know -- the 10-10 number he got just last month. Of course the Roster is out of date when you get it. It is out of date when it is printed. So is that Callbook you paid a lot more for.

From time to time we get suggestions that there should be a "timely" (whatever that means) loose-leaf updating for the Roster. No one has yet told me how to do this - who is going to organize all of it, arrange for the printing, store the large number of loose leaves involved (the new Roster will have well over 100 pages of computer output as its basis), fill members orders, and mail them out. If someone can tell the Board of Directors how to do this, and, more important yet, who is going to do it, the Board will certainly consider it. As I said earlier, we need volunteers!

73 for now,

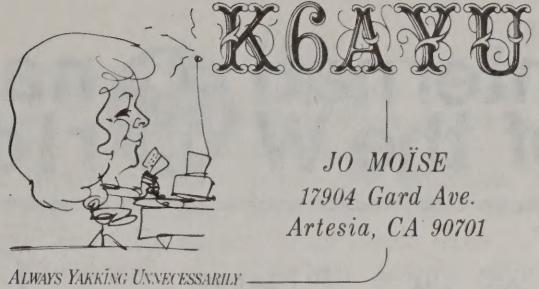

Howard A. Bowman, W6QIR, No. 4509
5872 W. 77th Place, Los Angeles, CA 90045

SPRING

QUARTERLY
MEETING

by: Jo Moise - K6AYU
10-10 Recording Secretary

On April 20, 1980 the Quarterly Luncheon was held at Stern's Barbeque in Culver City. The 10-10 International Net, Inc. wishes to thank AA6K-Jim and The City Of Angels Chapter for a well organized luncheon.

The meeting was opened by W6QIR-Howard with the Pledge of Allegiance followed by a moment of silence for our silent keys. The secretary's report was read and approved.

W6ENC-George reminded us of the Lockheed convention May 17 & 18.

W6CL-Bert reminds us of the ARRL Southwestern Convention at the Marriott Hotel September 5,6,&7.

AA6K-Jim hopes to announce the new City of Angels certificate in June.

WB6YYI-Hans reminds us of the hard working volunteers who have yet to receive formal recognition and recommends commendations for those who have given so many years of service from the goodness of their hearts. W6QIR-Howard relates the Board of Directors has been working on this.

W6IIRT-Norm introduced K9AQJ-Karl our 10-10 Attorney who gave a most interesting talk on the true definition of Amateur radio privileges and third party traffic. A round of questions and answers followed.

Our last cover girl- Connie- K6EXQ reminds Chapters to submit at least one report per year to keep their chapters on the active list.

W6DFM-Roy and his Eleanor report their supply manager job well in hand.

WB6OHM- Bill reports our second UAØ 10-10er. Bill reminds us to only send one bar application and wait until that is processed before submitting another.

WB6SYJ-George spoke on the upcomming June 19 - 20 Summer QSO party.

W6EHM- Morrie reported on the growth of 10-10.

WB6YYI-Hans volunteered as Historian of 10-10 saying he has records from its beginning. W6PGM-Jim reports he, too, has been working on 10-10's history and volunteers to help. W6WPY-Bob has memorabilia to contribute, also.

A discussion for more publicity for 10-10 in Amateur publications was held, but general consensus is that because 10-10 has its own publication other Amateur publications are reluctant to publish our information.

W6QIR-Howard reminds us that this is entirely a volunteer group and asks for all who are willing to help contact him and let him know how they can help and the field in which they feel they are willing to make their contribution.

KA6DHL-Ina has volunteered to write biographies of our more prominent members. Her address is correct in the 1980 Callbook.

Respectfully Submitted,

K6AYU-Jo
Recording Secretary

THEN -- AND NOW

The 10-10 International Net, Inc. continues to be indebted to its elected and appointed officers, to managers in the United States and elsewhere, to committee members, and last, but far from least, to those who volunteer for various assignments.

Some years ago, one who volunteered for such an important assignment was Charles F. (Chuck) Albrecht, Jr., WA0YNQ. At that time, the News was mostly known as "The Bulletin." It wasn't necessarily quarterly, because sometimes finances interfered with publication. It was simply a news letter recounting the events of the Ten Ten Net of Southern California, and it was small because there wasn't much to write about.

Although members carried on a great deal of ten meter activity, there was very little that was news. There were no district managers, and the various chapters that had sprung up rarely reported to the Net Coordinator. However, under Chuck's editorship, the Bulletin expanded rapidly to include chapter news and items of interest to all members.

At about the same time, the Net began to grow substantially, and as the number of members increased, so did the need for more Bulletin pages. A Net Roster was published, and a supplement to it was included in each issue. However, that practice was discontinued when the Roster grew to have more pages than the Bulletin. As the number of chapters became greater, more reports came in, accompanied by pictures of chapter events. Some of the chapters began to issue certificates, and the Bulletin carried lists of the certificates and the requirements for obtaining them. Again, the numbers of certificates and the requirements grew until it was no longer practical to publish them in the Bulletin.

One of the most memorable issues of the Bulletin was that of the spring of 1978, the fiftieth anniversary of the opening of the ten meter band to amateur use. In it were photographs of some of the first operators to use ten meters, and the equipment they used. The date of that first amateur use of 10 was March 7, 1928, and it was for telegraphy only!

It's a far cry from that old, mimeographed occasional bulletin of a regional ten meter group to today's publication. Even the name has now changed, to 10-10 International News. And the number of pages is a consistent 32 - a size dictated by the high-speed rotary presses on which the News is printed, in a single operation that prints, folds, pastes, and trims - all in one shot. In large part, the changes are due to the efforts and persistence of the Editor.

Even with the best of intentions, no editor can publish good, accurate, up-to-date material without cooperation from the original sources. If a chapter conducts an activity that is worth telling others about, news of it must get to the editor or to the Chapter Coordinator before it can get published. Getting it there is the responsibility of the chapter head or chapter secretary or whatever other person is designated by the chapter to get news submitted. The important thing is to get it in, and to do so before the deadline.

After material has been received, there is still an awful lot of work to be done on each issue. For example, photographs have to be examined closely to make sure they will reproduce, and that the subject or subjects have been properly identified. Their sizes will vary, and some may have to be reduced or enlarged. All of them must be "screened" so that the images are formed by a multitude of tiny dots of varying density in order for the printing plates to perform their function later on.

After all this preliminary work is done, each page has to be made up into "camera ready" form, and all 32 pages assembled into one set of copy, ready for the printer. Most of 10-10's printing is handled by Bert Ayers, W6CL, No. 17762, who is 10-10's official printer. But large jobs, such as the News and the Membership Roster, are usually sent out to a printer with high-speed presses. This is handled by Paul Champagne, K6VIC, No. 25613. During this printing process, there is a deadline for each operation, and if any one step isn't performed on time - going all the way back to the Editor's copy deadline - the whole publication sequence is delayed.

The last step is labeling and mailing. Address labels are produced by computer, and automatically applied by McKown Mailing Service. From there on, it's up to the Postal Service.

Radio work keeps 'retirees' busy in high country aerie

By FRANCES MELROSE

News Staff

High on the slopes of Squaw mountain, Frank A. "Bob" Swanlund and his wife, Margaret, live in an aerie that would be the envy of any eagle.

Their five-room house is of native stone, built by Swanlund with the help of friends. From their front door, 11,500 feet up, they look straight across to majestic Mount Evans.

Out their kitchen window, where birds feed on the ledge, they have a view of Denver, 30 miles away. On the other side, they can see Longs Peak 68 miles away, and on a clear day they get a 104-mile view of Cheyenne.

Swanlund, 70, a native of Bear Creek, started building his mountain hideaway in the mid-1940s, then retired from his flatland job and moved there 20 years ago.

But it isn't exactly retirement for Swanlund, a radio engineer, since he's on daily duty at his House of Radio Inc., where his elaborate equipment offers a repeater location to pick up radio signals, amplify and resend them.

Eighteen government agencies, federal as well as state, use his antenna towers. His favorite client is the U.S. Forest Service.

"The Forest Service is the only one we monitor 24 hours a day," Swanlund said. "You'd be surprised. We can be

sound asleep and, if they call for help, we hear them."

In the past 10 years, Swanlund said, he's been called on in only two emergencies. One was an auto wreck where immediate help was needed, and another came in from an inexperienced young forester.

"He had spotted a fire after sundown," Swanlund said. "His office didn't answer. He called us, and we radioed his ranger."

Swanlund's daily volunteer job is taking amateur radio messages on the weather from many points in the West, and phoning in weather reports to the U.S. Weather Service offices in Denver.

He sometimes handles as many as 80 messages from Iowa to California, and from Mexico to Canada, starting at 5:30 a.m. Between 7:30 and 8 a.m., he is on the telephone to the Weather Service in Denver. He hasn't missed a day in five years.

Volunteer weather reporters who call him are ham radio operators. Among them are Lois Wolever, who lives on a ranch near Merino and drives a school bus, and Bob Powers, a retired Fort Collins liquor store owner.

Others are Margaret Cogdill of Ten Sleep, Wyo., another ranch woman who has been on the weather net for 15 years, Bill Lehmann of Rapid City,

S.D., Larry Neal of Creede and Joy Shafer of Guffy.

Bob met Margaret, a native of Two Buttes, when she worked in a sewing machine factory, and he was an electrician for the factory. They were married in October 1938.

Following their marriage, Swanlund worked five years as a radio engineer for the Denver Police Department, then 11 years as an engineer with the Colorado Highway Patrol. He retired in 1960.

Swanlund had been operating his own ham radio station, W0WYX, since

1936, and he wanted a better location for long-distance communications.

The site on Squaw Mountain was ideal, so he worked out a long-term lease with the Forest Service for the land. He owns the buildings.

"Working for the Denver Police Department in 1946, I saw the need for repeater locations," Swanlund said. "I finally was able to translate that dream into a reality. Our antenna towers here do the job."

His wife, he said, "is an ideal woman for this kind of life, because she likes it."

While Mrs. Swanlund lives in a house that is heated with electricity as well as by a large fireplace, and cooks on an electric range and a microwave oven, other aspects of life at 11,500 feet are more rustic.

The "corner grocery store" is 25 miles away, in Idaho Springs. The Swanlunds have no water on their property and must haul it in 5-gallon jugs when they go to town two or three times a week.

"We have a tiled bath but no running water," Swanlund said.

Denver area Amateurs were very pleased to see this article that appeared in the Rocky Mountain News. Bob - W0WYX is a man we are all proud of for his very active radio activities. Bob holds 10-10 Number 11205 and Charter Number 13 in the Colorado 10-10 Chapter. If you ever come to Colorado for a visit, make sure you stop and see Bob & his XYL, Margaret.

Two pairs of snowshoes hang on the back of the livingroom door, and are used often.

"Before we moved up here, we hiked in every winter weekend on snowshoes, carrying packs of 20 and 45 pounds to see if we could do it, because we knew we might have to," said Mrs. Swanlund.

They've gone through winters where the snow was 12 feet deep in drifts against the house, and Swanlund had to crawl out a window to open a tunnel to the door.

They listen to winds howling around their house almost daily, and often the winds exceed 100 miles per hour.

One night when Swanlund was in town doing errands, a wind tore the roof off the U.S. Forest Service fire tower which stands 500 feet from the Swanlund home. Mrs. Swanlund, unable to stand against the wind, crept out on hands and knees to take care of other equipment.

Several years after the Swanlunds moved to Squaw Mountain, the regular fire lookout became ill and retired,

and the Forest Service asked Mrs. Swanlund to take the job. For 11 years, she manned the tower, scanning the horizons for fires.

Part of the job of any fire tower warden is chatting with visitors who come to the tower.

"It got so we had so many visitors during the fall color season that I told Bob to watch for the fires, and I'd do the entertaining," Mrs. Swanlund said.

Despite the isolated area of their home, the Swanlunds suffer a considerable lack of privacy, Mrs. Swanlund said.

"When we moved up here, I thought I'd be able to run around partially dressed if I wanted to," she said. "Not so. If we don't lock the front door, people walk right in on us. They think this is a Forest Service building, even though we have a big sign 'Private Residence,' on the door."

One winter, when the Swanlunds were away from their home a few days, they returned to find a couple who had broken a window and come in to use the house.

"Their car had broken down three

miles away, and they had hiked to our place," Mrs. Swanlund said. They paid us for the broken window, and we towed their car to Bergen Park."

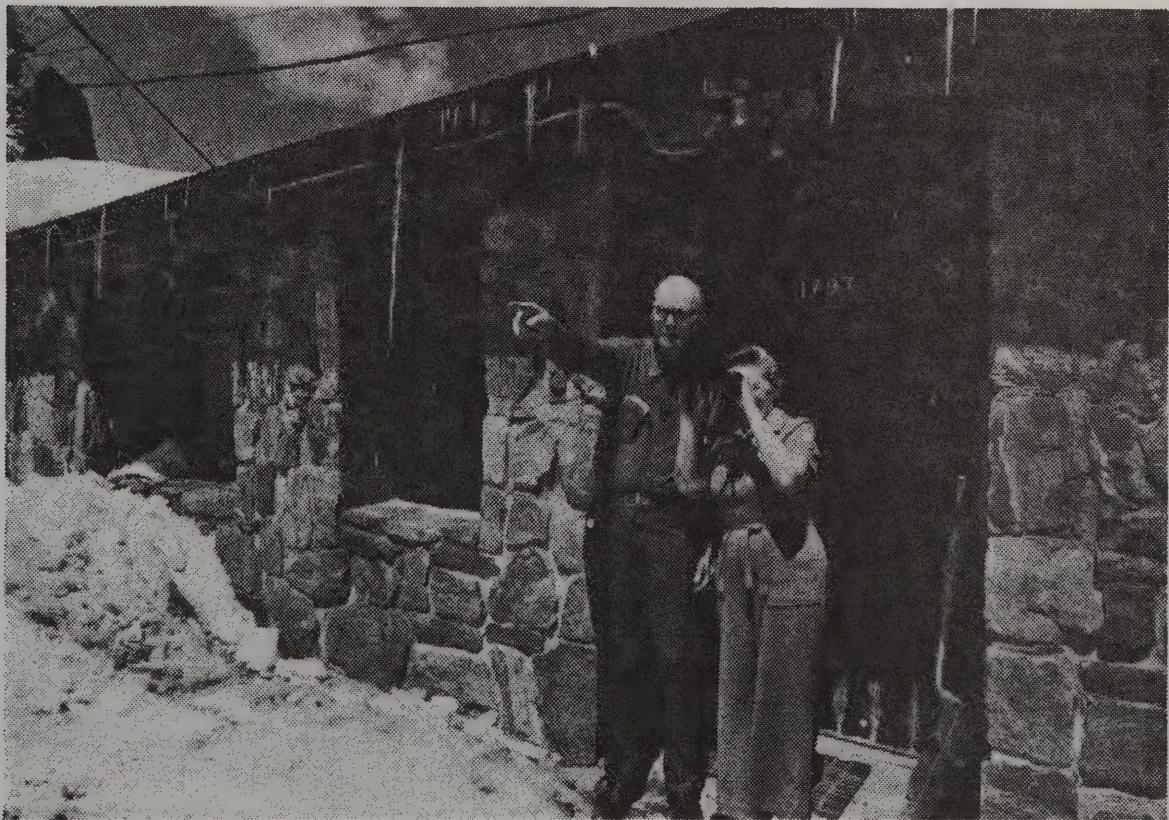

Another time, they returned to find that a hunter had broken in, stayed a while and gone, leaving money and a note on the table.

Occasionally they have had to drive down the mountain with people who had managed to drive up there but were too frightened to go back down.

Mrs. Swanlund recalls a New Yorker who visited the tower one Fourth of July and was so excited when it snowed that he wanted to call New York right then, from the tower.

"I especially enjoyed having groups of schoolchildren visit the tower," Mrs. Swanlund said. "If you can teach the kids not to litter, not to throw rocks at the little animals and to be careful with fires, you've done a lot."

In 1971, when the area had grown more populated, the fire tower was closed as no longer needed. Then Mrs. Swanlund spent five years working in a tourist information booth on the outskirts of Idaho Springs.

NEWS PHOTO BY MEL SCHIELTZ

Frank A. "Bob" Swanlund and wife Margaret admire scenery from their Squaw Mountain home.

Both Swanlunds also are sheriff's deputies for Clear Creek County.

With the closing of the fire tower, the Swanlunds aren't nearly as lonely as they thought they would be.

Groups of 20 in the Marine Corps Reserve come up two or three times a year and bivouac overnight in their backyard.

A helicopter operator from the Public Service Co. calls them nearly every morning to check on the weather.

"I ask him to tell me where they're going to fly, and I go out and take a visual and tell him how things look," Swanlund said. "Sometimes they fly right by here and wave to us. Or they land an eighth of a mile away and walk up."

Pilots for the St. Anthony Hospital Flight for Life chopper also call them when they're bringing technicians up to fix radio equipment at Swanlund's place.

The Swanlunds keep in touch with, but don't often see, their three children, nine grandchildren and four great-grandchildren, who are scattered around the nation.

Mrs. Swanlund grows houseplants, mainly African violets. Her husband occasionally does a column for the Idaho Springs Journal and writes for amateur radio publications.

They feed hundreds of birds and chipmunks and have a freezer in their basement, exclusively to hold suet and other bird tidbits.

They are active in the Masonic order and the Eastern Star. Mrs. Swanlund twice has been worthy matron of Eastern Star, as first for Radiant Chapter in Denver, then for Idaho Springs No. 51.

She is busy now making quantities of large, artificial columbine badges, because as Colorado Eastern Star representative for Michigan, she will attend Michigan's Grand Session in October.

Swanlund still keeps in regular touch with his long-time ham radio friends around the world.

"Some of them have shown up to visit us in person," he said.

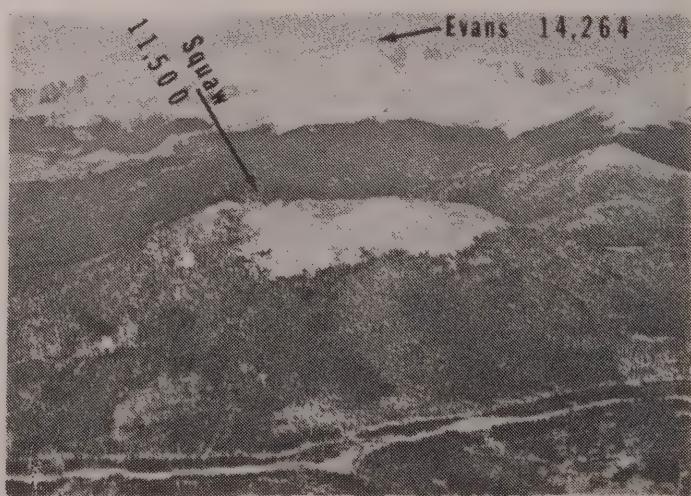

The Swanlunds have no plans to move away from the high living they enjoy.

 Clint 10x 2388 is our 4th dist. manager. He was born in 1904 in Springfield, Vt. Educated in N.H. N. Y. Penn. Maryland, Va. and N.J. He was licensed in 1953, and is very proud that he has helped others attain their amateur tickets. The 10-10 membership in his area has jumped from 800 in 1975 to 5000 at the end of 1979, and has accomplished this mainly by promotional 10x booths throughout the 8 states in the dist. Clint has his 3700 bar and is a very active and popular member. Keep up the good work, Clint.

OTHER NEWS

(The following news items were sent only to the Editor and, as a result, were not included in "Chapter Chatter".)

COMMODORE PERRY (K3GYD):

Chapter has moved it's net time up one hour to 19:30 local Wed on 28.835mc.

CRADLE OF THE CONFEDERACY (WD4BTX):

The Chapter will hold a QSO Party August 23/24 28.772mc 0800CDT to 2000CDT both days. Single contact with a local or charter will qualify for basic award.

CHIEF ANDERSON (WB9ZBG):

Their new award is called, "Mekinges" and C/M for it is: Aaron-WA9FTO, 1815 Costello Dr., Anderson, Ind., 46011. C/M for basic award is: Floyd-N9AMQ, 3311 Debra Dr., Anderson, Ind., 46011.

HORSETOOTH (N0AJH): They have come up with a "Puzzle" Certificate. Solve the riddle by contacting people on ten meters who have one of several parts to riddle. Your answer to be sent to C/M: Mike-WD0DND, 3501 Locust St., Fort Collins, Colorado 80521. Fee is \$2 & two .15¢ stamps.

OLDEST VERSUS YOUNGEST:

In my Editorial (Spring News) I mentioned that we would like to find out who our oldest and youngest members are. Buck, WALDUG, has had some response from the younger members, however, nothing from the oldsters. By the way, please mail information to me, rather than to Buck. The youngest so far is Eric, KA8ATM, of Culloden, West Virginia, who was first licensed at the age of 9 as a novice, and upgraded at 10 when he joined 10-10. Let's hear it from you out there! Can anyone beat 10 years old? Walt, K0SPR. in Pueblo, Colorado is in his mid-eighties. Can anyone beat that?

It is with deep regret that the News reports the loss of another active ham and 10-10 member, Mel Walker, WB0OTW. Mel lived in Raytown, Missouri, held an Advanced Class license, and was chapter head of the MO-KAN Chapter. His 10-10 Number was 12930. All of us will miss him.

Co-Ordinator

CONNIE HAUCK
K6EXQ 19681

It hardly seems that only three months have gone by since I wrote my last article for the News. So much has happened, most of it good. I have seen the birth of several new chapters and that is always good news; however, the death of some once very active chapters is sad. In another place you will note the listing of two more chapters who have gone extinct by request.

Beginning with this issue I will be writing the Chapter Chatter so all information for that should come to me and all pictures should continue to be sent to Chuck, WA0YNQ. If you send pictures to me, that will most like delay their appearing until the next issue. Chuck does need time to process the pictures so remember to send them to him as early as possible. Be sure to send to Mickey, KB5UP (new call) all net listings. A new Net Guide will appear in the next News and we as well as you want it to be correct. Mickey can only use the information that is sent to him so it is up to the chapter heads to be sure that every thing is correct and to him in plenty of time.

The chapter head from Prairie State wrote that they are extinct. I later had a letter from Dan Dooley, WB9TKA, who is the CM and he is continuing the certificate program and is going to have an upgrade out soon. Dan is in Texas and his qth is Dan W. Dooley 2225 Cottonwood Lane Bedford, Texas 76021. If Dan ever returns to land I hope that he will start the chapter again.

Several of the new chapter heads have asked for suggestions on net control. I have found the following method to work well for me when I have been NC and in various nets that I have checked into. First ask for all charters and locals of the net and then any other checkins. Have the first list give the basic information and make any calls desired. Band conditions may have something to do with the order in which stations give information and make calls. If you have a station in who may soon not be able to hear you, let that station go first. We know that about noon that a station from Europe may not last long on a Calif. net so that station would make calls first and maybe an earlier checkin would be delayed for a little while. The main thing is not to keep early checkins on the frequency while you continue to stop mid stream and take new checkins. One other thing and especially if your chapter is new, don't exchange a lot of other certificate numbers. If the net is older or things are quiet that is OK but not for a new chapter.

A large number of you complained of QRM on net frequency. That will be with us as long as we are on the air whether in nets or just a chat. If things are too bad just QSY a little and try not to say too much about the QRM. That in many, many cases just increase it. There are some people who like to create problems and to ignore them is the best treatment.

A great many certificates are asking for quite a few FS contacts for upgrades. This makes it very difficult on some of the older certificates because paper chasers go and come and if the FS has gone on to something else then your chapter is going to have a bunch of paper that it cannot pass out. Consider if 15,20,40 or in one case 50 FS are really needed. Again I ask you to make every effort to keep the price right. You will note that several increases are noted in the Chapter Chatter. I know that postage and printing continue to increase but maybe a smaller less colorful certificate would serve to promote your chapter just as well. Check your post office to be sure that you are paying the right amount of postage. Most of the certificates that require 2 stamps would go for 28¢ but most of mine come with 30¢. Two cents on 100 certificates adds up.

A letter from a DX CM said that his postage rates had increased 50% in just a few months and ask that we use air mail weight paper for applications if we want him to return them to us.

Remember the VK novices who cannot operate above 28.6. We have many 10-10 members among them and they enjoy exchanging numbers with us so let's tune down and work them. The CD party is not meant to exclude them but rather to stay out of the QRM as much as possible.

In talking with the VK stations I find that many of them are not getting the News except by some station stateside sending it to them. If you know of a person any place who is not getting the News, the first thing that he should do is to contact the person to whom he sent his dues and be sure that his address is OK. It is so easy to move and forget to tell all of the people and computers are very dumb. We humans have to tell them what to do but we have to know what to tell them. I am sure that 99% of the trouble can be cleared that way but if not, let me know and I will see what can be done. If you move or change your call, it is most important that your district manager knows about it. If one applies for a 10-10 bar and has a call that we do have listed on the list then it causes confusion to the awards manager so it really is important.

Thank you for the good response for chapter reports. Most of you got them in on time. You will note in the lower left hand corner that I have put the date that the report is due. That is the date that it is due in my shack. If your chapter is not mentioned it is because it didnot reach me in time. I have to get the material ready for Chuck and get it sent off to Denver so that he can get everything ready for the printers. I do work and it is not a one day job for me to get the information ready. Thanks to the chapters who sent an SASE for the return of chapter report forms. It is most thoughtful of you to do it and much appreciated.

A very special thanks to Gypsum City for the HC and piece of the rock and to Treasure Coast for the beautiful Captains Ship with the HC and also the Seven Rivers for their HC. Blue and Gray have given me CP membership. They are all very much appreciated. As I said before, I enjoy collecting certificates and each one has its special meaning to me and has a very important place in my collection.

In clesing I would like to ask your special prayers for my OM, K6DQA #436. June 8 he suffered a light stroke in his sleep. Hopefully by the time you have this he will be recovered and home. Of course what I fear now is if there is a next one and will it be light.

Remember support your local nets, they need you and especially when the band is not in the best of condition. Speaking of band conditions June 8 I was at the rig at 2230 PDLT and the only signals were two stations in Pa. I did manage a contact with them.

73,

Connie

ANNOUNCING
THE ARRIVAL OF...

THREE

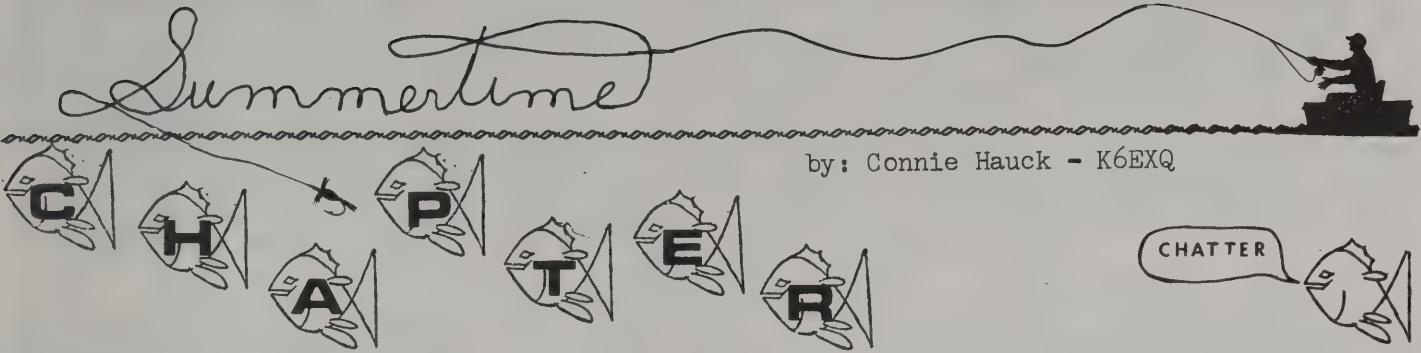

New Chapters

CHAPTER OF THE CAROLINAS (N4AYJ): A NEW CHAPTER IN RALEIGH, N.C. WITH A NET SUNDAY ON 28.935 AT 2000Z. Certificate information later.

CHRISTOPHER COLUMBUS (N6UB): WESTERVILLE, OHIO. A NET SATURDAY ON 28.640 AT 1800Z. A certificate requiring 30 points and the fee is \$1.30. Certificate manager is WB8YUO/Jerry Crosby.

MARC SHAWNEE (N8BIE): (Minford ARC) NEW CHAPTER LOCATED IN WHEELERBURG, OHIO (cert info is in Chapter Chatter). (Ed's note: no net info, must have a net to be a Chapter!!)

by: Connie Hauck - K6EXQ

CITY OF MUMS (WB1DAT): RAY REPORTS THAT THIS NEW CHAPTER IS GROWING AND HOLDING A NET EACH SUNDAY ON 28.745 AT 2300Z. THE TIME REMAINS THE SAME ALL YEAR. MINUTE MAN (W1FFT): NEWSY SAYS THAT HIS CHAPTER RECENTLY HELD A LUNCHEON WITH 49 MEMBERS AND GUESTS IN ATTENDANCE. ALL MEMBERS AND QUALIFIED APPLICANTS IN THE FIRST CALL AREA ARE BEING GRANTED LOCAL MEMBERSHIP IN THE MINUTEMAN CHAPTER. THIS WILL MAKE IT MUCH EASIER TO OBTAIN THE PAUL REVERE CERTIFICATE.

ELECTRIC CITY (WA2TTI): DURING MAY JERRY, WA2TTI, WAS OPERATING FROM GREENLAND AND MADE 884 CONTACTS BUT NONE ON TEN METERS...THE BAND WAS COMPLETELY DEAD. FLOUR CITY (WA2JPE): STEVE AND SHARON, WA2JPE AND WB2JPD, HAD AN EYEBALL WITH BILL, W6ZM. MARK YOUR CALENDAR FOR AUGUST AND ATTEND THE FLOUR CITY PICNIC. THE CHAPTER IS SAD TO ANNOUNCE THAT JERRY, K2ZZ, ONE OF THE ORIGINAL MEMBERS IS NOW A SILENT KEY. A HARDY CONGRATULATIONS TO WARREN/ N2AUV, FRED/KA2AID AND PHIL/WA2EKK FOR THEIR SUCCESS AT THE LOCAL HAMFEST. LINDBERG (WB2ZSW): LIKE SO MANY OTHER CHAPTERS AT THIS TIME OF YEAR NET CHECKINS ARE LOW. TO OBTAIN THE LINDBERG CERTIFICATE YOU NEED ONE CHARTER OR 2 HONORARY CHARTERS OR 2 LOCALS.

LIARS (W2KDI): THIS CHAPTER DID THE TALLY ON WINTER QSO PARTY AND WILL DO THE SUMMER TALLY AS WELL. THEY HAVE A 10-10 DX CERTIFICATE WHICH REQUIRES WITH 15 DIFFERENT COUNTRIES ON ARRL DX LIST. BASIC LIARS CERTIFICATE NOT REQUIRED. YOU DO NEED QSL CARDS BUT DON'T NEED TO SEND THEM IN. LOG INFO TO W2KDI ALONG WITH \$1. JACK WILL ACCEPT YOUR WORD THAT YOU HAVE THE CONFIRMATION.

STATEN ISLANDER (WA2KQN): RECENTLY HELD ANNUAL DINNER DANCE. A NEW AWARD WILL BE AVAILABLE SEPT. 7. NEED 400 POINTS TO INCLUDE 40 FS/FC, 5C, 4HC. FEE LATER. WILL BE OPERATING FIELD DAY. HAVE ADDED A CW NET WED. 28.150 AT 0000Z SUMMER AND 0100Z WINTER.

ANTHRACITE BREAKER (WB3AVF): DICK AND HIS XYL WILL BE HEADING FOR FLORIDA, GEORGIA AND TENNESSEE IN JULY. IN GEORGIA THEY WILL VISIT WD4DVZ AND KA4FVU. CRAZY EIGHTS (WB3EHR): LOOK FOR THE QSO PARTY OCT. 26TH BEGINNING AT 0000Z TO 2359Z. THERE WILL BE AWARDS FOR FIRST PLACE IN EACH U.S. CALL AREA, CANADA AND DX. DELAWARE VALLEY (K3LBM): NET NOW MEETS THURSDAY AT 1930 EDT ON 28.660. MARYLAND & DC (WA3NCQ): JIM IS STILL TRYING TO AWARD THE W.A.S. PLACQUE TO SOMEONE IN THE THIRD, FOURTH, FIFTH AND SIXTH CALL AREAS. YOU DO NOT NEED THE BASIC IN ORDER TO GET THE W.A.S.

ALL AMERICAN CITY (KA4BZY): A TEN-TEN BOOTH WAS MANNED BY CHAPTER MEMBERS AT THE LOCAL HAMFEST. W4YHF, JIM FROM SMYRNA, GEORGIA WAS THERE TO PRESENT THE TEN-TEN FORUM AND DISPLAY HIS LARGE COLLECTION OF CERTIFICATES. CHEHAW COUNCIL (WD4IBO): THE SPECIAL EVENT DAY IN APRIL INCLUDING A BARBECUE DINNER WAS ATTENDED BY ABOUT 40 PEOPLE. W4MM WAS IN OPERATION AND MADE MANY CONTACTS AND A GOOD TIME WAS HAD BY ALL. CHOCTAWHATCHEE BAY (WD4HBF): IN MARCH THE GROUP MANNEB A BOOTH AT THE PLAY-GROUND AREA AMATEUR RADIO CLUB HAMFEST IN FT. WALTON BEACH. A COFFEE GET TOGETHER IS HELD THE LAST SATURDAY OF EACH MONTH WITH MUCH SUCCESS. CRADLE OF CONFEDERACY (WD4BTP): A RECENT ELECTION PRODUCED THE FOLLOWING OFFICERS...PRESIDENT, HENRY/WD4BSY, Treasurer, DAN/W4PLI AND CERTIFICATE MANAGER, JACKIE /N4BKF. AND WYOMING 10-10, SITTERS, MANCUNIUM.

UP-COMING MEETINGS:

ANNOUNCING THE 10-10 CLOSED CD CONTEST

Here again is the chance for you to meet the officers of 10-10 International and for them to meet you. The contest is open to all 10-10 members only. This is how it will work: On Saturday, October 4, 1980 at 0001Z to 2359Z try to contact as many members and officers of 10-10 International as possible. All contacts are to take place between 28.8 and 29.0 MHz.

SCORING: members 1 point, certificate manager or chapter official 2 points, chapter head 3 points, district managers, all committee members, net guide editor, president, vice president, secretary, treasurer, chapter co-ordinator, directors, qso party managers, news editor, awards manager, roster manager, records manager and supply manager. Maximum number of points for any contact is 4 points. You may add your point values together as long as you do not exceed the 4 points.

Logs: Your log must include call, handle, qth, time, 10-10# and position (i.e. certificate manager, secretary etc.) and point value. Mail all logs by Oct. 25, 1980 to W6PGM, Jim Michaels, 3102 Lomina Avenue, Long Beach, Ca. 90808. Please add a summary sheet containing your call, 10-10#, handle, qth and number of points claimed. Be sure to mail your logs on time so that we will have the results for the next issue of the News.

AWARDS: Certificates will be awarded to the highest scoring official and non-official in each US and Canadian call district and each DX country.

This contest is meant to be short and fun so give it a try. Have fun meeting the various officers of 10-10 International and I am sure that they will have just as much fun meeting you. Remember, only 10-10 members will count during the contest.

June 1st until Sept 1st '80	Heart of Texas Chapter Contest	This contest will feature radio gear as prizes; Contact Doc-WB5KMN for full information.

-------------	--	-----------------------------

Nov 8/9 '80	4th Annual Houston Ham-Bash, Houston, Tex.	Sponsored by the Houston SHOT Chapter. Send SASE to WB5FII for details.
-------------	--	---

How to become a Ten-Ten Member

Work ten present members on 10 meters. Log each 10-10 number, call sign, date worked, operator's name, and location. Submit this list to your Call Sign Area Manager, with \$1 Registration Fee and \$3 for your first year's dues. Novices need not pay Registration Fee, and Novices and DX applicants need work but 5 present members. You will receive a Certificate and be assigned a permanent 10-10 Number. You must pay annual dues to remain in good standing, receive the Quarterly 10-10 International News, and participate fully in 10-10 activities.

How to earn Bars and Plaques

As a member, log the 10-10 numbers of stations you work on 10 meters. You may wish to mark your Roster to avoid duplicates, and to develop a filing system to record 10-10 contacts. All contacts must be bona-fide number exchanges on the air. When you have 100 contacts (including your first 10), list 100 only (never more, never less, and no duplicates) as follows:

1. Your list must be in serial order of 10-10 numbers.
2. You may submit only one list at a time.
3. You may not submit log books or copies of log book pages.
4. You must give your name, address, call sign, and 10-10 number and state which Bar you are requesting (i.e., 100 Bar, 200 Bar, etc.).
5. You must enclose an SASE (large size - about 4 1/4" x 9 3/8").
6. Mail your materials to: Wm. (Bill) Risher Jr. WB6OMH
Awards Manager
10542 Loch Avon Drive
Whittier, CA 90606

When you have attained your 500 Bar, you will be assigned an Honorary V. P. Number, and will be entitled to participate in additional activities. In addition, plaques are awarded for 1,000, 2,500, and 5,000 10-10 contacts.

How to earn WAS

When you have worked at least one 10-10 member in each of the 50 states, and have QSL card confirmation, mail your cards to WB6OMH (address above), and apply for the 10-10 WAS Certificate. Enclose also an alphabetic list of the states, with full information on each station worked, plus \$1.08 return postage.

Chapter Activities

Many 10-10 chapters issue certificates which may be earned by following rules established by those chapters. See "A Guide to 10-10 Nets" for days and times when chapter nets meet. Groups wishing to create local chapters may get information from Chapter Coordinator Connie Hauck, K6EXQ, 794 W. 23 St., Upland, CA 91786.

Is it That Time?

Look at the mailing label on this issue of your Quarterly Bulletin. In the center of the top line there is a four-digit number which tells you the expiration date of your Ten-Ten membership. The first two digits indicate the month, and the last two the year. If your membership has expired or is about to expire, RENEW NOW. Send your \$3.00 annual dues to your Call Area Mgr. If you are more than three months in arrears, you must pay a \$1.00 Reinstatement Fee. RENEW NOW!
